**Re: 2020 FISU World University Championships - International FISU Volunteer Programme**

Dear Friends,

FISU is launching for the third time its International FISU Volunteer Programme. The programme within the framework of the 2020 FISU World University Championships (WUC) is open to students from all around the world who want to gain experience and further their organisational abilities. International volunteers will have the opportunity to take part and experience a WUC from inside, working as part of an Organising Committee.

We would very much appreciate if you could help us promoting it through your official websites, social media and by communicating this information to the students of your country.

You can find attached to this letter the Volunteer Programme, a promotional flyer and the registration form. Please note that the interested students must send the registration form together with their CV and the student certificate.

You can relay the information from the news published today on our official website: [www.fisu.net](http://www.fisu.net).

May you have any question or need any additional information, do not hesitate to contact us ([education@fisunet](mailto:education@fisunet)).

We are looking forward to seeing your students at the 2020 FISU World University Championships.

Yours sincerely,

Eric Saintrond  
Secretary General/CEO
